Delivering Knowledge

TCP/IP, IP Training Courses

Overview

Welcome to Perpetual Solutions TCP/IP, IP and IPv6 Training Courses. Choose from non technical training to 'hands on' engineering courses in live classroom labs. We also provide onsite training across EMEA, US and Asia/Pac regions.

Courses

TCP/IP Overview

A 1-day TCP/IP Overview training course introducing the basics of TCP/IP networking and its practical applications.

code **PDN010** next date **January 07** in London 2 other dates in **London** 1 day

TCP/IP Introduction

A 2-day training course covering TCP/IP Networking, providing the knowledge and skills required to understand, manage and use a TCP/IP network.

code **TN** next date **December 19** in London 2 other dates in **London** 2 days

Hands On TCP/IP and Internet Protocols

A 4-day Training Course on Hands On TCP/IP and Internet Protocols; covers practical configuration & troubleshooting of TCP/IP within LANs and WANs.

code **PDN012** next date **January 14** in London 2 other dates in **London** 4 days

OSPF and BGP4

A 2-day Training Course on OSPF and BGP4; technical training course examining protocols and their importance to the future of scaleable multimedia networks.

code **PDN017** next date **January 06** in London 1 other date in **London** 2 days

TCP/IP and Networking Essentials for Broadcast Engineers

A 3-day training course covering TCP/IP and Networking Essentials for broadcast engineering audiences. The course includes IP, ethernet, SNMP, routing, switching and protocol analysis.

code **PDN019** next date **March 05** in London 1 other date in **London** 3 days

TCP/IP Networking

5 Day TCP/IP Networking Course - Gain essential knowledge and skills required to set up, configure, support and

troubleshoot your TCP/IP-based network

code **GK9025** onsite only 5 days

Network Security Fast Track Programme

5 Day Network Security Course covering Policy, Adminstration and Firewalls, Integration and Implementation, and VPN's and Data Privacy

code **GKNSBC** onsite only 5 days

IPv6: An Introduction

A 2-day Training Course on IPv6: An Introduction; addressing and its interoperability and integration with IPv4. This is future of internet addressing.

code **PDN018** next date **January 06** in London 2 other dates in **London** 2 days

Onsite training
