

MOS: Microsoft Office Specialist

Vendor: Microsoft

Overview:

You can earn a Microsoft Office Specialist (MOS) certification on Microsoft Office programs and Windows operating systems. This certification features Web-based pretests, program-specific certification exams, and a series of Microsoft Press step-by-step books that help you demonstrate expertise in accomplishing essential job tasks across multiple programs. After earning an MOS certification, you receive access to a member Web site where you can print transcripts to demonstrate proof of certification and receive a certificate that verifies your successful completion of the exam. Additionally, professionals who earn this certification gain access to a certification logo that they can display on their resumes and other business materials.

Why get certified?

Earning a Microsoft Office Specialist certification can help you differentiate yourself in today's competitive job market, broaden your employment opportunities by displaying your advanced skills, and result in higher earning potential. Microsoft Office Specialist certification can also lead to increased job satisfaction. Research indicates that certified individuals have increased competence, productivity, and credibility with their employers, co-workers, and clients.

For employers, the certification provides skill-verification tools that not only help assess a person's skills in using Microsoft Office programs but also the ability to quickly complete on-the-job tasks across multiple programs in the Microsoft Office system.

Please note that these certifications used to be known as MCAS, but from June 2010 have changed to MOS. MCAS certificates are still valid and recertification is not required.

MOS certification is available for Word, Excel, PowerPoint, Access and Outlook on both 2007 and 2010 versions.

Word 2010 Level 1

This 1-day Word 2010 Level 1 training course provides the basic concepts required to create, edit, and enhance standard business documents.

course code **DWD10L1**

 **3 Classroom dates**

 **2 locations**

Word 2010 Level 2

This 1-day Word 2010 level 2 course provides the skills required to create or modify complex business documents as well as customised Word efficiency tools.
